James Ross Collection

Dear Partner,
James Ross Collection offer a wide range of refined promotional and professional wear.
James Ross models reach high quality standard and by utilizing the best technical fabrics they provide great comfort and functionality.
We do not supply end users directly but we **only address qualified dealers**, to which we offer an excellent price-quality relation, a state-of-the-art logistic support and last but not least the option to create and develop "on demand" models.
Moreover through James Ross you will have the chance to customize some items according to your requirements, you will regularly receive up to date catalogues for your clients and tailored made price lists, you will have access to special offers on a monthly basis and thanks to our stock of 15.000 pallets of available goods in our warehouse you will experience a first class delivery service.
We can produce every kind of sweaters "Made in Italy" with a lead time of 30 days.

TECHNICAL UNDERWEAR BREATHABLE MICROFIBER MERYL

RUNNER MICROFIBRE SEAMLESS:

Meryl - the bacteriostatic techno-fibre inhibiting the formation of bad odours - is hypoallergenic and breathable and has thermoregulating properties. As a result, briefs keep skin always dry, wicking moisture and sweat away. Their anatomically tight-fitting structure is based on seamless technology providing support while improving movements. The yarns used comply with strict human-ecological parameters (Oeko-tex certified).

Main features:

High breathability and fit

Top lightness and softness

No pilling, no ironing.

Anti-allergic

Seamless

Elasticized fabric

Recommended use:

Running, trekking, cycling, free time, motorcycling and summer sports.

LYCRA
This fibre can reduce muscle vibrations which are the primary cause of muscle fatigue, increasing sensitivity, precision and efficiency of movements with greater comfort and wearability.

MERYL E MERYL SKIN-LIFE
This man-made microfibre with bacteriostatic properties maintains a perfect physiological balance by inhibiting the formation of bacteria on the fabric and the consequent creation of dermatitis and skin irritations. Top comfort, lightness and breathability guaranteeing ideal body temperature.

Technical materials and structure:

JRC socks are obtained with first-calibre and technologically leading edge yarns:
their combination has been engineered to guarantee the greatest functionality. Anatomically cushioned structures with differentiated density, protective padding, graduated compression provide maximum performance and anti-stress defatiguing effects.

LYCRA

This fibre can reduce muscle vibrations which are the primary cause of muscle fatigue, increasing sensitivity, precision and efficiency of movements with greater comfort and wearability.

POLYPROPYLENE

As a cutting edge fibre, polypropylene guarantees top-performing thermal properties; given its hollow-section structure, the average weight Is 40% lower than wool but with the same capacity to maintain body warmth. This translates into a compact volume, great lightness of garments and freedom of movements. Its hypoallergenic and antistatic properties make it totally wearable as a second skin even by epidermal sensitive individuals. It is breathable, stain-resistant and with very fast colours. It Is easy to wash and dry.

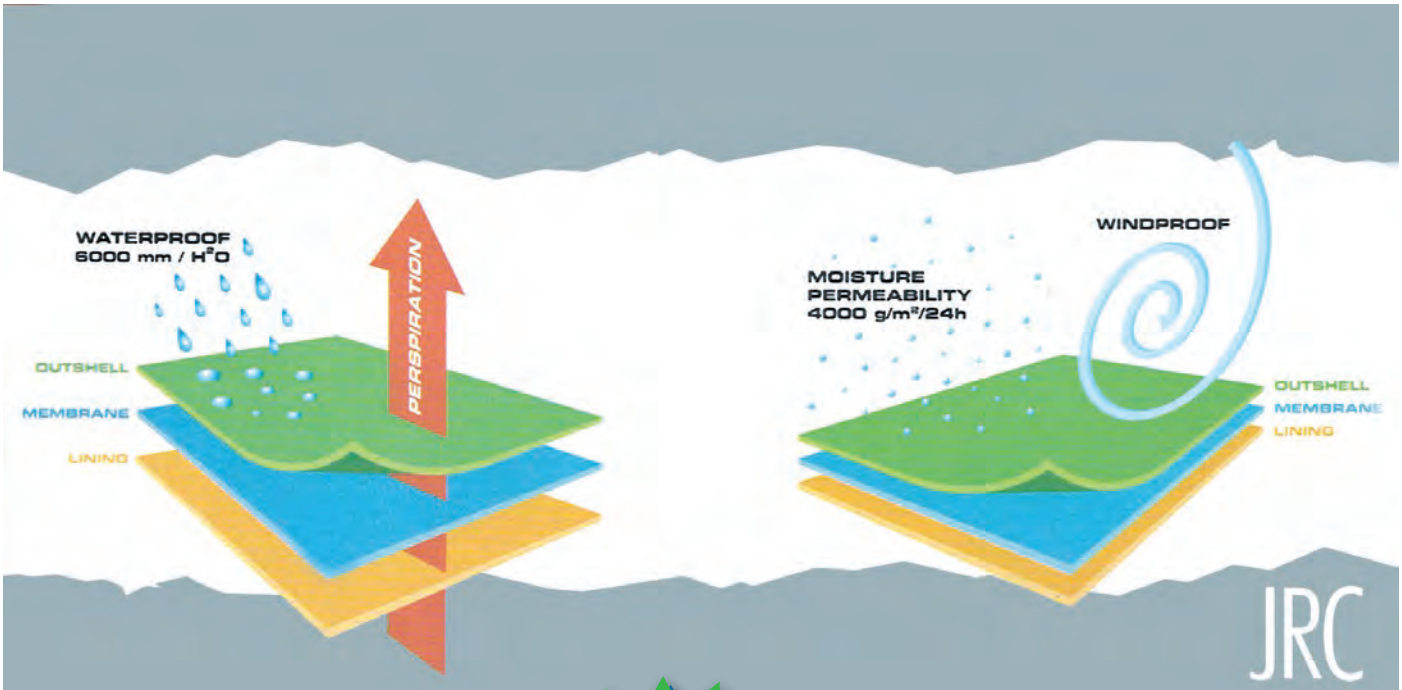
WATER RESISTANCE + BREATHABILITY



3 LAYERS

Our soft-shells can be worn in the professional and sporty fields since their 3 layer fabric assures complete water resistance and the best breathability.

The soft –shell material is indeed the result of 3 different fabrics joined together:

- **an external water-proof outshell**
- **an inner breathable membrane**
- **a fleece lining**

in order to supply the final user with maximum comfort.
